Eisenhower Matrix – Brook Animut

CS193 Project

Urgency / Importance	Urgent	Not Urgent
Important	- Web Scrape from tower dining website - App shows latest menu at all times - Logic to hit user's goal macros and calories per day + recommendations based on it	- Shows menu as a widget on the phone - Super clean UI
Not Important	- Streaks/weekly reports - Come up with a name for the app (Boiler Eats? Boiler Meals … Boiler Diet…)	–Include campus center meals - Include Purdue WL Dining (make it purdue-wide)
